Logistically in the perfect location with state-of-the-art production facilities the noltewerk in Greven has much to offer. Multi-resource-planning networks our machines and operations so that processes involved may be perfectly and economically planned. The unique constellation of the Noltegroup creates unparalleled synergies. Noltewerk and Carl Nolte Technik mutually benefit from being housed under one roof with member of staff acting as one team. Comprehensive additional storage capacities and know-how in digital procurement and logistics processes are also part of the core competencies of Carl Nolte Technik just as services and products for health and safety as well as tube and compressed air technology are.
